- Son başvuru tarihine kadar yapacağınız başvuru sonucunda ev sahibi kuruluş tarafından seçilmeniz durumunda, projeye kesin olarak gideceksiniz demektir.
- Gönüllüyü seçecek olan koordinatör kuruluş, son başvuru tarihi olan 20.01.2018'den önce uygun bir gönüllü bulması durumunda başvuru almayı her an durdurabilir.

- Projenin bilgilerini aşağıda bulabilirsiniz. Başvurunuzu yollarken özgeçmiş, projeye yönelik motivasyon mektubu ve GENÇTUR'dan
- aldığınız Gönderen Kuruluş Destek Belgesini bir arada yollamayı unutmayın.

PROJECT DESCRIPTION: INCLUSIVE DIVERSITY

„Hold my hand, and I'll show you, that the World needs You”

FOGD A KEZEM ALAPÍTVÁNY/HOLD MY HAND FOUNDATION

Our Foundation has been established in 1991. We work with mentally disabled adult people, who finished their school and work in protected work-shop environment.

Our main goal is to give these people – we like to call them Youngsters, as it's the least prejudist – purpose in life, to help them develop their skills, to teach them about life, and how they could live independent life, as much as possible. We work with key words, as normalisation, empowerment, inclusion, self-determination, autonomy and diversity.

Next year we celebrate the 17th year anniversary since we've been working with EVS. Throughout these years we've hosted many volunteers, who made a big difference in our work, each of them we cherish, and have many good memories with them. With some we still have contact, they come and visit us, or we go and visit them.

About the Foundation:

The Hold My Hand Foundation is working with mentally disabled people 18 years and above. The Foundation operates a **Daycare and Work-therapy Centre**, where the Youngsters work in 5 different workshops (creative, candle, papier, household and assembly).

These handmade products prepared in the workshops are either ordered by private people or companies or they will be sold on different markets. We have also opened our webshop.

Besides the daily work we prepare, organize and execute various pilot projects, in which we like to involve our Hungarian volunteers also, and a lot of times we cooperate with the local schools and universities. One of our most exciting project is Art Brut, what we are trying to get popular in our area, the other well liked project is „Special Caffè”, where our Youngsters go out in Caffeterias and help the workers there.

The Foundation also operates a **Living Centre**, where 9 of our Youngsters are living. It's a house near the centre of Pécs, and it functions like a family home. This is the place the Youngsters go to work from and where they get back after work, they relax, do their tasks and duties, help in preparing the dinner, clean up, do dishes, so on. They learn to be as independent, as possible.

Speciál Pécs Fogytékosokért Alapítvány (Special Pécs for the disabled Foundation)

For many years we've been working with people, who have intellectual learning difficulties and people with changed work abilities. In our service the colleagues help and support the clients to find work on the open labourmarket. They organize trainings for the clients, help them make CV-s, prepare them to fulfill the requirement, which is mandatory in a normal workplace. Our colleagues keep regular contact with the companies, factories and multicompanies, where they accept and employ our clients. Also they visit schools and hold them trainings.

About EVS (European Volunteer Service):

Since 2001 the Foundation has been working with EVS, we've sent and hosted many volunteers from various countries from inside and outside of the EU. We look at our volunteers, as colleagues, who play a very important role in our work, they change the way we use to think, they help us to look at things differently, with they own projects they leave their handprints for the future and for a kind of memoir at the Foundation.

Activities carried out by EVS volunteers:

Each project period depends of the EVS volunteer, what kind of personality he/she has. We spend the first month of the project with getting to know each other, the Youngsters help with their openness a lot, so the language is not a big problem, and as the volunteer learns Hungarian it get easier and easier. The mentor and the coordinator always ready to help, and so are the other colleagues, we work as a team.

The volunteer gives assistance in the workshop, he/she is working daily and is welcome to carry out own ideas and projects, as long as it fits in the life of the Daycare/Living Centre. The volunteer is offered to manage the project, we give assistance and help throughout the whole process, and at the end we evaluate together. We await and accept feed-back.

Next projectperiod: 01.03.2018 - 28.02.2019 Duration of the project: 12 months

Theme and title of the projects: Inclusion, art, disability – „Inclusive diversity”

Remember to attach your CV and motivation letter (Why you think, you would be the perfect candidate?)
